

BRASS RING BARB FITTINGS (BRINGBARB)

Applications:

Brass hose barbs are recommended for general purpose air, water and other low pressure applications. CA360 brass construction prevents rust and corrosion.

Ring-Barb Fittings are designed for use with POLYETHYLENE TUBE. The barb has a raised ring that imbeds into the tube. This assures a leakproof connection when used within the normal temperature and pressure range of the tube. Simply push fitting into tube to assemble. NO TOOLS OR CLAMPS REQUIRED.
